

Product Name: Red Conditioner Product identifier: 1162 Revision Date: 03-13-2022 Replaces:

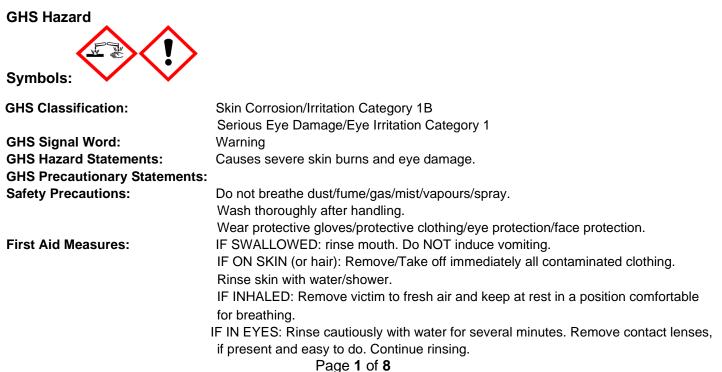

Kidd Wash Chemicals

1. Identification	1
-------------------	---

Product Name: Product identifier:	Red Conditioner 1162
Relevant identified uses of the substance or mixture and uses advised against:	Car Wash-Colored Body Conditioner
Chemical Manufacturer /	Parker Distributing Company 4701 West F. M. Road 3331 Canyon, Texas 79015

Emergency telephone number: INFOTRAC 1-800-535-5053

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

Product Name: Red Conditioner Product identifier: 1162 Revision Date: 03-13-2022 Replaces:

	Immediately call a POISON CENTER/doctor/
	Specific treatment (see on this label).
	Wash contaminated clothing before reuse.
Storage:	Store locked up.
Disposal:	Dispose of contents/container in accordance with
	local/regional/national/international regulation for hazardous wastes.
Hazards not otherwise classified:	No data available

3. Composition/information on ingredients

Chemical Component:	CAS number and other unique identifiers	% (or range) of ingredient
hydrated oxide	1310-73-2	>1
Benzenesulfonic acid	27176-87-0	>10
Benzenesulfonic acid, dimethyl-, sodium salt	1300-72-7	>5

the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

4. First-aid measures	
Eye Contact:	Immediately flush eyes with plenty of water for at least 20 minutes
	retracting eyelids often. This corrosive material can cause
	immediate and permanent eye damage. Tilt the head to prevent
	chemical from transferring to the uncontaminated eye. Get
	immediate medical attention and monitor the eye daily as advised
	by your physician. Flush eye with water for 20 minutes. Get medical attention.
Skin Contact:	Wash with soap and water under a drench shower. Remove
	contaminated clothing, launder immediately, and discard
	contaminated leather goods. Get medical attention immediately.
	Wash with soap and water. Get medical attention if irritation
	develops or persists.
Inhalation:	Remove to fresh air. If breathing is difficult, have a trained
	individual administer oxygen. If not breathing, give artificial
	respiration and have a trained individual administer oxygen. Get
	medical attention immediately
Ingestion:	Corrosive. Do not induce vomiting! Drink one glass of water
J	followed by milk if available. Seek medical attention immediately

Product Name: Red Conditioner Product identifier: 1162 Revision Date: 03-13-2022 Replaces:

> and give the medical care provider with this MSDS. If swallowed, do NOT induce vomiting. Give victim a glass of water or milk. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.

Immediate medical attention No additional first aid information available **and special treatment needed**,:

5. Fire-fighting measures

Suitable extinguishing media:	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid.
Unsuitable extinguishing media:	No data available
Fire and/or Explosion Hazards:	Material will not ignite or burn.
Hazardous Combustion	Carbon dioxide, Carbon monoxide
Products:	
Special protective equipment and precautions for fire- fighters:	Will not burn, no special instructions available. Use methods appropriate for surrounding materials.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures:	Exposure to the spilled material may be severely irritating or toxic. Follow personal protective equipment recommendations found in Section VIII of this MSDS. Personal protective equipment needs must be evaluated based on information provided on this sheet and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the expertise of employees in the area responding to the spill. Never exceed any occupational exposure limits.
Methods and material for containment and cleaning up:	No special spill clean-up considerations. Collect and discard in

Product Name: Red Conditioner Product identifier: 1162 **Revision Date:** 03-13-2022 **Replaces:**

7. Handling and storage

Precautions for safe handling: Toxic or severely irritating material. Avoid contacting and avoid			
	breathing the material. Use only in a well ventilated area. As with all chemicals, good industrial hygiene practices should be followed when handling this material. Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Wash thoroughly after handling Do not get in eyes, on skin and clothing Use with adequate ventilation Minimize dust generation and accumulation "Empty" containers retain product residue (liquid and/or vapor) and can be dangerous. Remove contaminated clothing and wash before reuse		
Conditions for safe storage: No special requirements Limit quantity of material stored. Store			
	in a tightly closed container Store in a cool dry place Keep away from food and drinking water.		
Materials to Avoid/Chemical Incompatibility::	Strong oxidizing agents Strong acids		

8. Exposure controls/personal protection

Limits:

Chemical Component	OSHA PEL	ACGIH TLV-TWA	ACGIH STEL
None			
Appropriate engineering controls.:	controls are necessary wh overexposure. Engineerin OSHA chemical specific st required to maintain opera limits. Use process enclos engineering controls to con recommended exposure limit	process enclosures, or othe en handling or using this pro g controls must be designed tandard in 29 CFR 1910. Ve tor exposure below publishe ures, local exhaust ventilation ntrol airborne levels below ts Facilities storing or using thi ed with an eyewash and saf	oduct to avoid d to meet the ntilation is ed exposure on, or other s
Eye Protection:	Additionally, wear a face s	es when handling this product hield when the possibility of contact lenses. Have an eye and a Face shield	splashing of
Skin Protection:	Avoid skin contact by wea and other protective equip Inspect gloves for chemica intervals. Clean protective eq other exposed areas with mil	ring chemically resistant glo ment depending upon condi al break-through and replace juipment regularly. Wash hand d soap and water before eating ork. Where contact is likely, we	tions of use. a t regular s and J,

Product Name: Red Conditioner Product identifier: 1162 Revision Date: 03-13-2022 Replaces:

	chemical resistant gloves, a chemical suit, rubber
	boots, and chemical safety goggles plus a face shield
Respiratory Protection: Respirator	ry protection must be used when handling this product. Use
	respirators only if ventilation cannot be used to eliminate symptoms
	or reduce the exposure to below acceptable levels. A supplied air
	type respirator may be required. Follow a respiratory protection
	program that meets 29 CFR 1910.134 and ANSI Z88.2
	requirements whenever work place conditions warrant the use of a
	respirator. A supplied air type respiratory will be required.
Other Protective Equipment: V	Vear goggles and a Face shield Where contact is likely,
	wear chemical resistant gloves, a chemical suit, rubber
	boots, and chemical safety goggles plus a face shield
General Hygiene Conditions: As	with all chemicals, good industrial hygiene practices should be
	followed when handling this material. Avoid contact with material,
	avoid breathing dusts or fumes, use only in a well ventilated
	area. Wash thoroughly after handling Do not get in eyes, on skin
	and clothing Use with adequate ventilation Minimize dust
	generation and accumulation "Empty" containers retain product
	residue (liquid and/or vapor) and can be dangerous. Remove
	contaminated clothing and wash before reuse
	containinated ciolining and wash before reuse

10. Stability and reactivity

Reactivity:	No data available
Chemical stability:	Stable under normal conditions.
Conditions to avoid:	None known.
Incompatible materials:	Strong oxidizing agents Strong acids

11. Toxicological information

Likely routes of exposure	Inhalation, Ingestion, Skin contact, Eye contact
(inhalation, ingestion, skin and	
eye contact):	

Immediate (Acute) Health Effects by Route of Exposure:

burns.

Innitioalato (/toato/ floatin E	
Inhalation Irritation:	Can be corrosive to the respiratory tract causing severe irritation and tissue damage.
	Slightly irritating to the respiratory tract.
Skin Contact:	Corrosive to skin tissue. Can cause chemical burns. May cause skin irritation.
Skin Absorption:	No absorption hazard in normal industrial use.
Eye Contact:	Corrosive to eye tissue. Can cause severe irritation, tearing, and burns that can quickly lead to permanent injury including blindness. Substance causes severe irritation. Permanent eye injury may result.
Ingestion Irritation:	Corrosive to tissue. Can cause severe and permanent damage to mouth, throat, stomach. Aspiration may lead to lung damage. Harmful if swallowed.
Ingestion Toxicity:	Harmful if swallowed. May cause systemic poisoning.
Long-Term (Chronic) Health	<u>) Effects:</u>
Carcinogenicity:	None of the substances have been shown to cause cancer in long term animal studies. Not a carcinogen according to NTP, IARC, or OSHA.
Reproductive and	No data available to indicate product or any components present at greater than
Developmental Toxicity:	0.1% may cause birth defects.
Mutagenicity:	No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.
Inhalation:	Upon prolonged and/or repeated exposure, can be corrosive to the respiratory tract

Inhalation:Upon prolonged and/or repeated exposure, can be corrosive to the respiratory tract
causing severe irritation and tissue damage.Skin Contact:Upon prolonged or repeated contact, corrosive to skin tissue. Can cause chemical

Upon prolonged or repeated exposure, no hazard in normal industrial use.

Skin Absorption:

Component Toxicology Data

Chemical Component	Oral LD50	Dermal LD50	Inhalation LC50
No data available			

Has the chemical been classified as a Carcinogen by NTP, IARC or OSHA.

Chemical Name	OSHA Carcinogen	IARC Carcinogen	NTP Carcinogen
No data available			

12. Ecological information

Ecotoxicity (aquatic and terrestrial, where available):	This material is not expected to be harmful to the ecology.
Persistence and degradability: Mobility in soil: Other adverse effects (such as	No data available No data available No data available
hazardous to the ozone layer):	

Ecological Toxicity Data

Chemical Component	Aquatic EC50 Crustacea	Aquatic ERC50 Algae	Aquatic LC50 Fish
No data available			

13. Disposal considerations

Description of waste residues:	Spent or discarded material is non-hazardous according to environmental regulations.
Waste treatment methods (including packaging):	Dispose of in a landfill. Disposal is not likely to be regulated.

14. Transport information

UN proper shipping name: Refer to bill of lading or container label for DOT or other transportation hazard classification, if any.

15. Regulatory information

TSCA Status:

All components in this product are on the TSCA Inventory.

Regulated Components:

Chemical Component	CAS number and other unique identifiers	CERCLA	SARA EHS	SARA 313	California Prop 65
No data available					

Product Name: Red Conditioner Product identifier: 1162 Revision Date: 03-13-2022 Replaces:

16. Other information, including date of preparation or last revision.

Revision Date:	03-13-2022
Revision Number:	1
