

Product Name: UPHOLSTERY & CARPET CLEANER

Product identifier: 21P Revision Date: 04-02-2015

Replaces:

Parker Distributing Co., INC.

1. Identification

Product Name: UPHOLSTERY & CARPET CLEANER

Product identifier: 21 F

Relevant identified uses of the

substance or mixture and uses

advised against:

Fabric and Carpet Cleaner

Chemical Manufacturer Parker Distributing Company

4701 West F. M. Road 3331 Canyon, Texas 79015

Emergency telephone number: INFOTRAC 1-800-535-5053

2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard

(4)

Symbols:

GHS Classification: Serious Eye Damage/Eye Irritation Category 1

Skin Corrosion/Irritation Category 2

Flammable Liquid Category 4

GHS Signal Word: Danger

GHS Hazard Statements: Cumbustible Liquid

Causes skin irritation.

Causes serious eye damage.

GHS Precautionary Statements:

Safety Precautions: Keep away from heat/sparks/open flames/hot surfaces. – No smoking.

Wash thoroughly after handling.

Wear protective gloves/protective clothing/eye protection/face protection.

First Aid Measures: IF ON SKIN: Wash with plenty of soap and water.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses,

if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor/....

Replaces:

Specific treatment (see on this label).

If skin irritation occurs: Get medical advice/attention.

Take off contaminated clothing and wash before reuse.

In case of fire: Use for extinction.

Storage: Store in a well-ventilated place. Keep cool.

Disposal: Dispose of contents/container in accordance with

local/regional/national/international regulation for hazardous wastes.

Hazards not otherwise

classified:

MEDICAL CONDITIONS AGGRAVATED: dermatitis may be aggravated by excessive

exposure to skin.

3. Composition/information on ingredients

Chemical Component:	CAS number and other unique identifiers	% (or range) of ingredie	
Isopropanol	67-63-0	1 - 5	
Tetrasodium Ethylenediamine Tetraacetate	6381-92-6	1 - 5	
Sodium metasilicate	6834-92-0	0.5 - 1.5	

the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

4. First-aid measures

Eye Contact: Immediately flush eyes with plenty of water for at least 20 minutes

retracting eyelids often. This corrosive material can cause immediate and permanent eye damage. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get

immediate medical attention and monitor the eye daily as advised by your physician. Flush eye with water for 20 minutes. Get medical

attention. Seek medical advice if symptoms persist

Skin Contact: Wash with soap and water under a drench shower. Remove

contaminated clothing, launder immediately, and discard contaminated leather goods. Get medical attention immediately.

Wash affected area thoroughly with soap and water.

Inhalation: Remove to fresh air. If breathing is difficult, have a trained

individual administer oxygen. If not breathing, give artificial respiration and have a trained individual administer oxygen. Get medical attention immediately. If inhaled, remove victim from

exposure to a well-ventilated area.

Ingestion: Corrosive. Do not induce vomiting! Drink one glass of water

followed by milk if available. Seek medical attention immediately and give the medical care provider with this MSDS. Seek immediate

medical attention.

Eye contact may cause burns, irritation, tearing and corneal Most important

symptoms/effects (Delayed: damage.

Ingestion may cause nausea and irritation.

Prolonged inhalation of vapors may cause burns to nasal passages,

respiratory tract and lungs.

May cause headaches and dizziness. No additional first aid information available

Immediate medical attention

and special treatment needed,:

5. Fire-fighting measures

Suitable extinguishing media: Use alcohol resistant foam, carbon dioxide, dry chemical, or water

spray when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the fire. Do not direct a water stream directly into the hot burning liquid. Water spray Alcohol foam Dry chemical

Carbon dioxide

Unsuitable extinguishing media: No data available

Fire and/or Explosion Hazards:

Material may be ignited if preheated to temperatures above the flash point in the presence of a source of ignition. Combustible Liquid. Can form explosive mixtures at temperatures at or above

the flash point.

Hazardous Combustion

Products:

Carbon monoxide, Carbon dioxide

and precautions for fire-

fighters:

Special protective equipment Do not enter fire area without proper protection including selfcontained breathing apparatus and full protective equipment. Fight

fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Exposure to the spilled material may be severely irritating or toxic. Follow personal protective equipment recommendations found in Section VIII of this MSDS. Personal protective equipment needs must be evaluated based on information provided on this sheet and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the expertise of employees in the area responding to the spill.

Never exceed any occupational exposure limits.

Methods and material for containment and cleaning up:

No special spill clean-up considerations. Collect and discard in regular trash. SMALL SPILL: Contain and collect with absorbent. LARGE SPILLS: Shut off leak if safe to do so. Use an inert absorbent

such as sand or vermiculite. Place in properly labeled closed

container.

7. Handling and storage

Precautions for safe handling: Toxic or severely irritating material. Avoid contacting and

avoid breathing the material. Use only in a well ventilated

area. Keep out of the reach of children.

Conditions for safe storage: Store in a cool dry place. Isolate from incompatible materials.

STORAGE TEMPERATURE: 0°C (32°F) Minimum to 40°C (104°F)

Maximum. Shelf life is one year.

Materials to Avoid/Chemical Strong oxidizing agents Strong acids

General Hygiene Conditions: Keep out of the reach of children.

Incompatibility::

8. Exposure controls/personal protection

Limits:

<u>Limits:</u>			
Chemical Component	OSHA PEL	ACGIH TLV-TWA	ACGIH STEL
No data available			
Appropriate engineering controls.:	controls are necessary who verexposure. General or	process enclosures, or other en handling or using this pro- local ventilation or isolation exposures below exposure	oduct to avoid may prove

Reactivity: No data available

Chemical stability:Stable under normal conditions.Conditions to avoid:None known. High temperatures.Incompatible materials:Strong oxidizing agents Strong acidsHazardous decompositionCarbon dioxide Carbon monoxide

products:

11. Toxicological information

Likely routes of exposure (inhalation, ingestion, skin and eye contact):

Skin contact, Absorption, Eye contact, Ingestion

Immediate (Acute) Health Effects by Route of Exposure:

Inhalation Irritation: Can be corrosive to the respiratory tract causing severe irritation and tissue damage.

Irritating to the nose, throat, and respiratory tract.

Skin Contact: Corrosive to skin tissue. Can cause chemical burns. May cause skin irritation. **Skin Absorption:** No absorption hazard in normal industrial use. Contact with skin can cause

Product Name: UPHOLSTERY & CARPET CLEANER

Replaces:

irritation, (minor itching, burning and /or redness), Dermatitis, Defatting may be

readily absorbed through the skin.

Eye Contact: Corrosive to eye tissue. Can cause severe irritation, tearing, and burns that can

quickly lead to permanent injury including blindness. Can cause moderate irritation.

Ingestion Irritation: Corrosive to tissue. Can cause severe and permanent damage to mouth, throat,

stomach. Aspiration may lead to lung damage. Irritating to mouth, throat, and

stomach.

Ingestion Toxicity: Harmful if swallowed. May cause systemic poisoning.

Long-Term (Chronic) Health Effects:

Carcinogenicity: None of the substances have been shown to cause cancer in long term animal

studies. Not a carcinogen according to NTP, IARC, or OSHA.

Reproductive andNo data available to indicate product or any components present at greater than

Developmental Toxicity: 0.1% may cause birth defects.

Mutagenicity: No data available to indicate product or any components present at greater than

0.1% is mutagenic or genotoxic.

Inhalation: Upon prolonged and/or repeated exposure, can be corrosive to the respiratory tract

causing severe irritation and tissue damage.

Skin Contact: Upon prolonged or repeated contact, corrosive to skin tissue. Can cause chemical

burns.

Skin Absorption: Upon prolonged or repeated exposure, no hazard in normal industrial use.

Component Toxicology Data

Chemical Component	Oral LD50	Dermal LD50	Inhalation LC50
No data available			

Has the chemical been classified as a Carcinogen by NTP, IARC or OSHA.

Chemical Name	OSHA Carcinogen	IARC Carcinogen	NTP Carcinogen
No data available			

12. Ecological information

Ecotoxicity (aquatic and

terrestrial, where available): This material is not expected to be harmful to the ecology.

Persistence and degradability:

Mobility in soil:
Other adverse effects (such as hazardous to the ozone layer):
No data available
No data available

Ecological Toxicity Data

Chemical Component	Aquatic EC50 Crustacea	Aquatic ERC50 Algae	Aquatic LC50 Fish
No data available

13. Disposal considerations

Description of waste residues: Spent or discarded material may be a hazardous waste. **Safe Handling of Waste:** Disposal must be in accordance with applicable Federal,

State/Provincial and Local regulations.

Waste treatment methods (including packaging):

Dispose of by incineration following Federal, State, Local, or

Provincial regulations.

14. Transport information

UN proper shipping name: Refer to bill of lading or container label for DOT or other

transportation hazard classification, if any.

15. Regulatory information

TSCA Status: All chemicals in this product are listed, or are exempt from

listing on the TSCA Inventory.

Regulated Components:

Chemical Component	CAS number and other unique identifiers	CERCLA	SARA EHS	SARA 313	California Prop 65
No data available					

16. Other information, including date of preparation or last revision.

Revision Date: 04-02-2015

Revision Number: 1
