

Safety Data Sheet

Product Name: BLUE MAGIC

Product identifier: 33P

Revision Date: 05-24-2015

Replaces:

Parker Distributing Co., INC.

1. Identification

Product Name: Blue Magic
Product identifier: 33P
Relevant identified uses of the substance or mixture and uses advised against: Solvent Based Dressing

Chemical Manufacturer / Parker Distributing Company INC.
4701 W. F.M. Road 3331
Canyon, Texas 79015

Emergency telephone number: INFOTRAC 1-800-535-5053

2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard Symbols:

GHS Classification: Flammable Liquid Category 3
Specific Target Organ Systemic Toxicity (STOT) - Single Exposure Category 3
GHS Signal Word: Warning
GHS Hazard Statements: Flammable liquid and vapor.
May cause respiratory irritation.

GHS Precautionary Statements:

Safety Precautions: Keep away from heat/sparks/open flames/hot surfaces. – No smoking.
Ground/bond container and receiving equipment.
Use explosion-proof electrical/ventilating/lighting equipment.
Use only non-sparking tools.
Take precautionary measures against static discharge.
Avoid breathing dust/fume/gas/mist/vapors/spray.
Use only outdoors or in a well-ventilated area.
Wear protective gloves/protective clothing/eye protection/face protection.
First Aid Measures: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing.

Safety Data Sheet

Product Name: BLUE MAGIC

Product identifier: 33P

Revision Date: 05-24-2015

Replaces:

Rinse skin with water/shower.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Call a POISON CENTER or doctor/physician if you feel unwell.

In case of fire: Use for extinction.

Storage:

Store in a well-ventilated place. Keep container tightly closed.

Store in a well-ventilated place. Keep cool.

Store locked up.

Disposal:

Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes.

Hazards not otherwise classified:

MEDICAL CONDITIONS AGGRAVATED: dermatitis may be aggravated by excessive exposure to skin.

3. Composition/information on ingredients

Chemical Component:	CAS number and other unique identifiers	% (or range) of ingredient
(petroleum), heavy alkylate	64741-65-7	40 - 70

the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

4. First-aid measures

Eye Contact:

Use an eye wash to remove a chemical from your eye regardless of the level of hazard. Flush the affected eye for at least twenty minutes. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Seek medical advice after flushing. Flush eye with water for 20 minutes. Get medical attention. Seek immediate medical attention.

Skin Contact:

Wash with soap and water. Remove contaminated clothing and continue flushing with water. Wash affected area thoroughly with soap and water.

Inhalation:

This material does not present a hazard if inhaled. Remove individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure. If inhaled, remove victim from exposure to a well-ventilated area. If breathing is difficult, give oxygen by trained personnel. If breathing is difficult, give oxygen. Seek immediate medical attention.

Ingestion:

No hazard in normal industrial use. Do not induce vomiting. Seek medical attention if symptoms develop. Provide medical care provider with this MSDS. Do not induce vomiting unless directed to

	do so by medical personnel. Call a physician or poison control center immediately.
Most important symptoms/effects (Delayed:	Eye contact may cause burns, irritation, tearing and corneal damage. Ingestion may cause nausea and irritation. overexposure to vapors may cause headaches, dizziness, confusion and nausea
Immediate medical attention and special treatment needed,:	No additional first aid information available

5. Fire-fighting measures

Suitable extinguishing media:	Use alcohol resistant foam, carbon dioxide, dry chemical, or water spray when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the fire. Do not direct a water stream directly into the hot burning liquid. Regular foam Carbon dioxide Dry chemical
Unsuitable extinguishing media:	No data available
Fire and/or Explosion Hazards:	Vapors may be ignited by sparks, flames or other sources of ignition if material is above the flash point giving rise to a fire (Class B). Vapors are heavier than air and may travel to a source of ignition and flash back. Empty containers that retain product residue (liquid, solid/sludge, or vapor) can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose container to heat, flame, sparks, static electricity, or other sources of ignition. Any of these actions can potentially cause an explosion that may lead to injury or death. Do not expose container to heat, flame, sparks or other sources of ignition.
Hazardous Combustion Products:	Carbon monoxide, Carbon dioxide
Special protective equipment and precautions for fire-fighters:	Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Flammable component(s) of this material may be lighter than water and burn while floating on the surface.

6. Accidental release measures

**Personal precautions,
protective equipment and
emergency procedures:**

**Methods and material for
containment and cleaning up:**

No adverse health affects expected from the clean-up of spilled material. Follow personal protective equipment recommendations found in Section VIII of this MSDS.
No special spill clean-up considerations. Collect and discard in regular trash. **SMALL SPILL:** Remove all ignition sources. Use an inert absorbent such as sand or vermiculite. Place in properly labeled closed container. **LARGE SPILL:** Remove all ignition sources. Shut off source of the release if this can be done without risk of injury.

7. Handling and storage

Precautions for safe handling: No special handling instructions due to toxicity. Keep out of the reach of children.

Conditions for safe storage: Store in a cool dry place. Isolate from incompatible materials. Keep away from heat, sparks, and flame **STORAGE TEMPERATURE:** -17°C (0°F) Minimum to 38°C (100°F) Maximum. Shelf life is one year.
ELECTROSTATIC ACCUMULATION HAZARD:
Ground and bond containers when transferring material.

**Materials to Avoid/Chemical
Incompatibility::** Strong oxidizing agents Strong acids Strong alkalis

8. Exposure controls/personal protection

Limits:

Chemical Component	OSHA PEL	ACGIH TLV-TWA	ACGIH STEL
No data available			

**Appropriate engineering
controls.:**

No exposure limits exist for the constituents of this product. No engineering controls are likely to be required to maintain operator comfort under normal conditions of use. General or local ventilation or isolation may prove adequate to keep airborne exposures below exposure limits.

Eye Protection:

Wear safety glasses when handling this product. Safety Glasses or goggles with splash guards or side shields.

Skin Protection:

Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Use Nitrile / Vinyl gloves

Respiratory Protection:

No respiratory protection required under normal conditions of use. NIOSH respirator -(organic vapor) in absence of proper

environmental control.

Other Protective Equipment: Safety Glasses or goggles with splash guards or side shields. Use Nitrile / Vinyl gloves

General Hygiene Conditions: Keep out of the reach of children.

9. Physical and chemical properties

Appearance (physical state):	Liquid
Color:	Blue
Odor:	Fresh Fruit
Odor threshold:	No data available
pH:	7
Melting Point/Freezing Point (°C):	No data available
Initial Boiling Point and Boiling Range (°C):	157
Flash Point (°C):	48
Evaporation Rate:	Not determined
Flammability (solid, gas):	No data available
Upper Flammable/Explosive Limit:	No data available
Lower Flammable/Explosive Limit:	No data available
Vapor Pressure:	No data available
Vapor Density:	No data available
Relative Density:	0.8
Solubility(ies):	Insoluble
Partition coefficient: n-octanol/water:	No data available
Auto-ignition Temperature (°C):	No data available
Decomposition Temperature::	No data available
Viscosity:	No data available

10. Stability and reactivity

Reactivity:	No data available
Chemical stability:	Stable under normal conditions.
Conditions to avoid:	None known. Contamination.
Incompatible materials:	Strong oxidizing agents Strong acids Strong alkalies
Hazardous decomposition products:	Carbon dioxide Carbon monoxide

11. Toxicological information

Likely routes of exposure (inhalation, ingestion, skin and eye contact):

Skin contact, Absorption, Eye contact, Ingestion

Symptoms related to the physical, chemical and toxicological characteristics,:

Eye contact may cause redness, tearing and a burning sensation. Ingestion may cause nausea and irritation.

Overexposure to vapors may cause headaches, dizziness, confusion and nausea.

Immediate (Acute) Health Effects by Route of Exposure:

Inhalation Irritation:

No hazard in normal industrial use. Irritating to the nose, throat, and respiratory tract.

No hazard in normal industrial use.

No absorption hazard in normal industrial use. Contact may cause irritation and possible dermatitis or sensitization.

Can cause minor irritation, tearing and reddening. Substance causes moderate irritation.

No hazard in normal industrial use. Harmful if swallowed.

Long-Term (Chronic) Health Effects:

Carcinogenicity:

None of the substances have been shown to cause cancer in long term animal studies. Not a carcinogen according to NTP, IARC, or OSHA.

Reproductive and Developmental Toxicity:

No data available to indicate product or any components present at greater than 0.1% may cause birth defects.

Mutagen city:

No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.

Inhalation:

Upon prolonged and/or repeated exposure, no hazard in normal industrial use.

Skin Contact:

Unlikely to cause irritation even on repeated contact.

Skin Absorption:

Upon prolonged or repeated exposure, no hazard in normal industrial use.

Component Toxicology Data

Chemical Component	Oral LD50	Dermal LD50	Inhalation LC50
No data available			

Has the chemical been classified as a Carcinogen by NTP, IARC or OSHA.

Chemical Name	OSHA Carcinogen	IARC Carcinogen	NTP Carcinogen
No data available

12. Ecological information

Ecotoxicity (aquatic and terrestrial, where available):

This material is not expected to be harmful to the ecology.

Persistence and degradability:

No data available

Mobility in soil:

No data available

Other adverse effects (such as hazardous to the ozone layer):

No data available

Ecological Toxicity Data

Chemical Component	Aquatic EC50 Crustacean	Aquatic ERC50 Algae	Aquatic LC50 Fish
No data available			

13. Disposal considerations

Description of waste residues:

Spent or discarded material is a hazardous waste.

Safe Handling of Waste:

Disposal must be in accordance with applicable Federal, State/Provincial and Local regulations.

Waste treatment methods (including packaging):

Dispose of by incineration following Federal, State, Local, or Provincial regulations.

Waste Disposal Code(s):

D001

14. Transport information

UN proper shipping name: Refer to bill of lading or container label for DOT or other transportation hazard classification, if any.

15. Regulatory information

TSCA Status:

All chemicals in this product are listed, or are exempt from listing on the TSCA Inventory.

Regulated Components:

Chemical Component	CAS number and other unique identifiers	CERCLA	SARA EHS	SARA 313	California Prop 65
No data available
